

Table of contents

Chapter 1 - A Macroevolutionary Research Program
Chapter 2 - Fitting Statistical Models to Data
Chapter 3 - Introduction to Brownian Motion
Chapter 4 - Fitting Brownian Motion
Chapter 5 - Multivariate Brownian Motion
Chapter 6 - Beyond Brownian Motion
Chapter 7 - Models of discrete character evolution
Chapter 8 - Fitting models of discrete character evolution
Chapter 9 - Beyond the Mk model
Chapter 10 - Introduction to birth-death models
Chapter 11 - Fitting birth-death models
Chapter 12 - Beyond birth-death models
Chapter 13 - Characters and diversification rates
Chapter 14 - Summary
